# FranceAgriMer

An arbitration tool and platform dedicated to the fostering of strategic thinking and exchanges between French Agriculture and Fishery sectors

FranceAgriMer

FranceAgriMer, a helpful tool for the different sectors: CEREALS / FRUITS AND VEGETABLES / HORTICULTURE / MILK / OIL AND PROTEIN SEED CROPS / FISHERY AND AQUACULTURE /...

FranceAgriMer is a national establishment for agriculture and sea products, under the authority of the French Ministry for Agriculture.

It is a management and arbitration tool, a platform dedicated to the fostering of strategic thinking and exchanges of information and ideas between French Agriculture and Fishery sectors.

## Ours missions

The French agriculture and fishery sectors are facing many challenges: feeding the planet, preserving the environment, increasing economic performances, in particular exports. As a service provider, FranceAgriMer:

- monitors markets and provides an **economic expertise**, helping operators in the agriculture and sea sectors to design development strategies;
- ensures cooperation and close **dialogue** between the eleven specialized Committees for the different sectors and monitors the implementation of government policies within these Committees;
- Monitors **the organization of producers** and their **cooperation** with the administrative regions;
- monitors **market regulation instruments** and **manages national and EU subsidies**;
- Takes part in **technical cooperation** activities and helps promoting French sectors abroad.

## FranceAgriMer in figures

To fulfill its mandate  
FranceAgriMer employs

1,270

people to carry out its tasks,

among which 410 working in the different administrative regions.

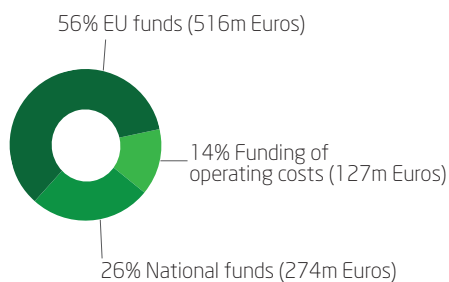

In 2013, 840 million Euros were allocated to the agriculture and fishery sectors, among which 70% funded by EU subsidies and 30% by national subsidies.

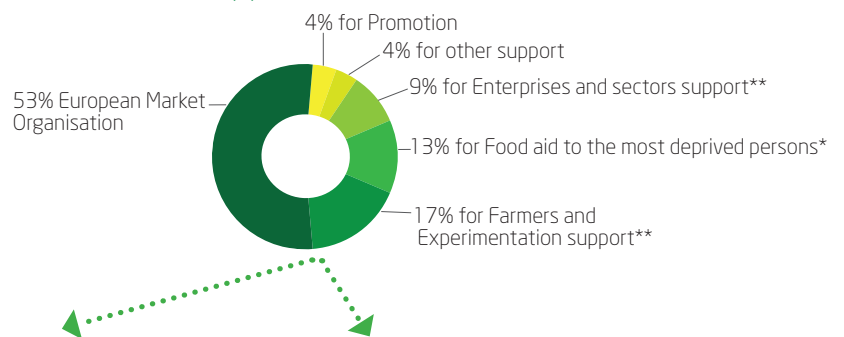

6 million Euros were also allocated to data acquisition and economic studies.

FranceAgriMer also controls the management of a variety of financial instruments, including about 2 billion euros in "supports" for the cereal producers.

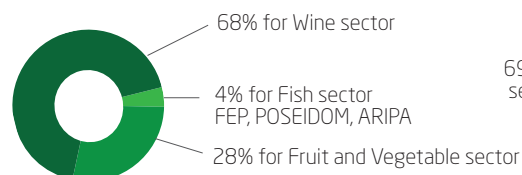

### Financial resources

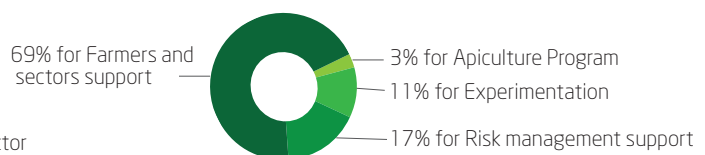

### Support breakdown

### European Market Organisation - Support breakdown

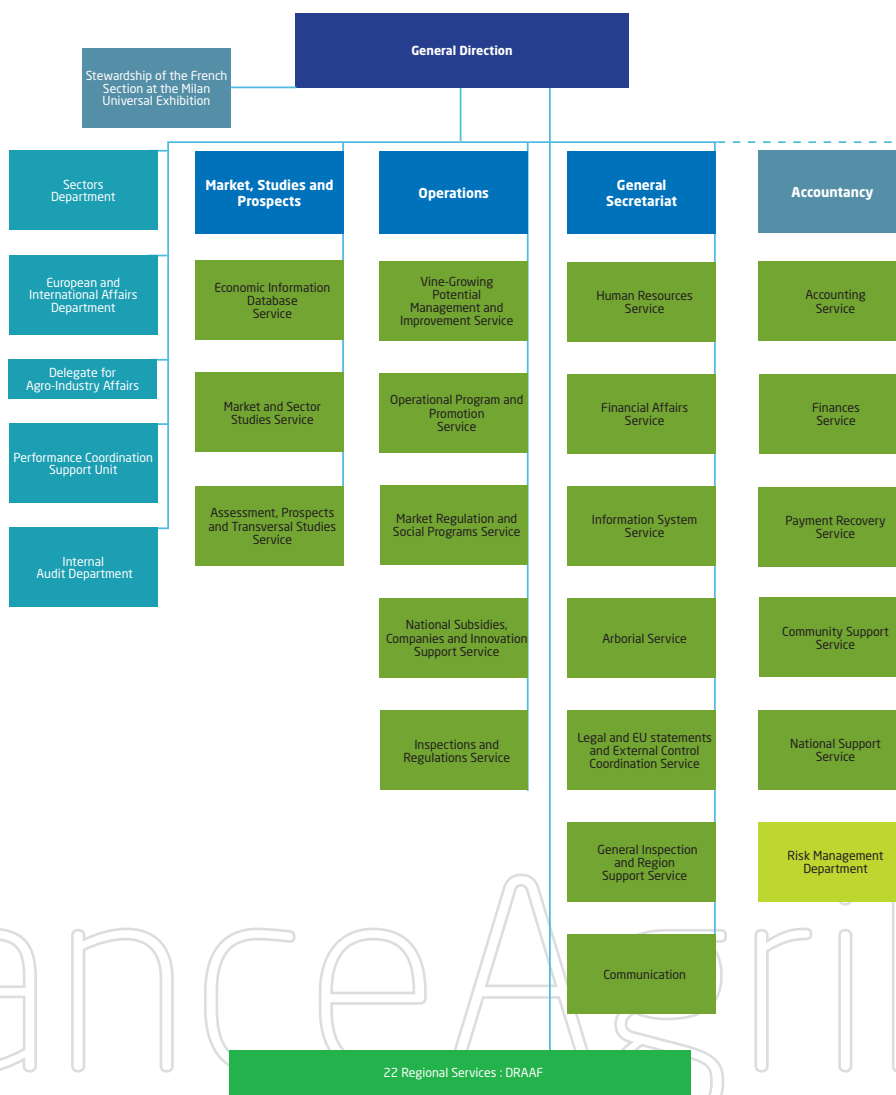

### National funds for Farmers and Experimentation breakdown

\* mostly European funds

\*\* mostly National funds

To carry out its tasks, FranceAgriMer is organised by sector.

FranceAgriMer has its head office in Montreuil (93)

FranceAgriMer also includes three national offices: one office in Libourne, which monitors some of the measures for the **vine growing market**; one in La Rochelle, where cereal analyses are conducted in a **specialized laboratory**; one in Volx, which monitors **aromatic and medicinal plants**, as well as **Mediterranean products** (olive oil and rice).

FranceAgriMer also has territorial services within every Regional Office for food, agriculture and forest (DRAAF). Regional agents work closely with producers and operators for every sector. They monitor inspection audits, data processing and answer to operator's requests.
